

Paper Title	Authors
A Synergy For Increased Seismic Protection Of Bridges	Roy A. Imbsen and Anoop Mokha
Horizontal Impedance Functions For Circular Foundations On Layered Soil Media	M. Shahria Alam, Ashutosh Sutra Dhar and Alper Turan
Response Of Underground Pipes Due To Blast Loads	Olarewaju, A. J., Kameswara Rao, N.S.V. and Mannan M.A.
Dynamic Analysis Of Transmission Towers Under Strong Ground Motion	Gopiram Addala, D.Neelima Satyam and Ramancharla Pradeep Kumar
Analysis Of Seismic Quiescence As A Significant Precursor For The Eastern Part Of Turkey	Serkan Öztürk , Yusuf Bayrak
Seismicity In Bangladesh Using Local Seismic Station	Md. Momenul Islam
Bearing Capacity Improvement Of Liquefiable Soil Using Lime Stabilization	M. Hussain and S. K. Dash
Reliability Assessment Of R.C.C Bridge Superstructures Under Earthquake Excitation	Rakesh Kumar S
Wind Tunnel Study On The Xia-Zhang Bridge Under Construction: Unique Tower Condition	Ayad Thabit Saeed, Zhang Liang Liang and Yang Zhuan Yun
Experimental In-Plane Performance Of Confined Perforated Masonry Walls Under Cyclic Loading	Houssam Mohammad Agha, Li Yingmin and Oday Asal Salih
The Adriatic Sea Earthquake Of August 21, 2009 (Ml=5.0)	Ormeni Rrapo, Ozturk Serkan and Gumeni Fatmir

Lateral Velocity Contrasts Across Lushnje-Elbasan-Dibra Deep Fault Zone Of Albania	Ormeni Rrapo, Jata Idris and Daja Shkelqim
Analytical Investigations Of Confined Masonry Constructions	Hemant B. Kaushik And Dhaval A. Sanganee
New Earthquake Test Facility At Serc, Csir- Towards Disaster Preparedness Of India	K. Muthumani, N.Gopalakrishnan, K.Sathishkumar, R.Sreekala and Nagesh R. Iyer
Seismic Performance Evaluation Of Different Types Of Beam-Column Joints	A. M. Choudhury, A. Dutta and S. K. Deb
Assessment Of Earthquake Vulnerability And Preparedness Status At Educational Institutions In Dhaka City	Motaleb Hossain Sarker and Najmun Nahar
In-Plane Seismic Behavior Of Solid Confined Masonry Walls “Without Opening	Oday Asal Salih, Li Yingmin and Houssam Mohammad Agha
Investigation Of Dynamic Response Of Dams Under Earthquake Loading Using Dynamic Centrifuge Modeling	S.P.G. Madabhushi and S. Saleh
Neotectonic Activities Along Madhupur Tract And Its Adjoining Areas	M. K. Maitra and S. H. Akhter
Tsunami Risk Assessment For Kutubdia Island In Bangladesh	U.K. Navera, Badal Mahalder
Recent Earthquake Disaster Preparedness In Korea	Tae-Hyung Lee and Hak-Eun Lee
Health Monitoring Of Concrete Structures Using Packaged Fiber Optic Sensor	K. Kesavan ¹ , S. Parivallal, B. Arun Sundaram ¹ P. Biswas, S. Bandyopadhyay, K. Ravisankar and K. Dasgupta
Seismic Performance Enhancement Of Structures By Passive Energy Dissipation	K. Sathish Kumar, C. Antony Jeyasehar, K. Muthumani and N. R. Iyer

Earthquake Risk In Syria	Feras Alzoubi and Li Zhengliang
Emergency Suction Well: Proposed Provision For Withdrawing Water From Underground Reservoir Of Damaged Buildings	Syed Azizul Haq
Assessing Social Vulnerability To Earthquake Hazards In Old Dhaka, Bangladesh	Israt Jahan, Mehedi Ahmed Ansary, Sharmin Ara and Israt Islam
Effect Of Epoxy Repairing On RC Beam Shear Strengthened With Side Bonded CFRP Sheet Strips	Feras Al Zoubi, Professor Li Zhengliang
Seismic Behavior Of Reinforced Concrete Elevated Water Tanks With Shaft Type Supports.	Pronoy Roychowdhury
Seismic Hazard Assessment With Fragility Curves Of Hospital Nonstructural Components In Taiwan	George C. Yao , Ying-Lieh Tu, Chih-Wei Yen
Seismic Performance Of Concrete Flat Slabs	Md. Motleb Hossen, Md. Majharul Islam and Iftekhar Anam
Seismic Detailing And Behavior Of RC Frames	A. K. M. Abdullah, Md. Abdul Awal and Iftekhar Anam
Radon And Active Tectonics In The Shillong Area	Devesh Walia, Y. Sharma, A. Saxena, D. Maibam and P. Wahlang
A Site Amplification Study Using Observed Records At BMD, Dhaka For Seismic Microzonation	Md. Rubyet Kabir
An Efficient GUI Based Methodology For The Finite Element Analysis Of Dam-Foundation-Reservoir System	Saket Bhushan, Avijit Burman and Damodar Maity
Social Responsibility Towards Sustainable Seismic Rehabilitation: Some Thoughts	Md. Zakaria Ahmed, Md. Kabirul Islam, Tasmia Sanzana Serniabat and Saranah Selmi

Seismic Vulnerability Assessment Of Buildings In Heritage And Non-Heritage Areas In The Older Part Of Dhaka City	Md. Nurul Alam, Khaled Mashfiq, Anisur Rahman, Prof. Shamim Mahabubul Haque
A Study Of Control Of Vibration Isolation Technique Of A Multistory Building Using Magnetic Field	Arjun Sil
Seismic Performance Evaluation Of Different Steel Frame Buildings Designed According To NBCC 2005	Moniruzzaman Moni and M. Shahria Alam
Strength And Ductility Characteristics Of Jute Fibre Reinforced Earthen Block Mortar System	M. Shariful Islam and M. Mostafizur Rahman
Low Cost Building Materials And Earthquake Prone North East India	Raju Sarkar
Proposed Time History And Response Spectrum For Dhaka, Chittagong And Sylhet Cities	Mehedi Ahmed Ansary, Saidur Rahman, Estiak Mahmud Murad, Sabbir Alam Chowdhury and Debashish Paul Shuvra
Analysis On Stability Of Slope In Cohesive Embankment Under Static And Dynamic Condition	A. K.Dey and Sil.Arjun
Seismic Vulnerability Assessment Of Buried Gas Pipeline In Chittagong Metropolitan Area, Bangladesh	S. N. Ullah, M. J. Alam, and S.B.Reza
Static And Random Vibration Analysis Of LRU Of An Aircraft	Dipak K. Maiti
Remedial Measures For Reduction Of Seismic Vulnerability In Buildings With Soft Ground Storey	Swarnendu Shekhar Mondal, Ishtiaque Ahmed
Modal Analysis Of The Jamuna Multi-Purpose Bridge Considering Soil-Structure Interaction	R. Ahsan, M. M. Hasan and S. M. Reza
