

## Visitors

Ms. Rory Villaluna, Executive Director, Philippine Centre for Water and Sanitation-ITN Foundation visited ITN Centre Bangladesh during 10-15 February 2002. The purpose of her visit was to foster collaboration between the two organizations and specifically to discuss possible arrangements with ITN-BUET for developing relevant training material for the DFID research project, 'Capacity Building for Effective Decentralized Wastewater Management'. Dr. Jonathan Parkinson of GHK International directly involved in the

Ms. Rory Villaluna and Dr. Jonathan Parkinson at the ITN Centre

above research project also visited along with her. In this connection ITN arranged a visit for them to the duckweed based wastewater treatment site at Mirzapur of the Prism Bangladesh.

During her stay she also visited ITN Sub-centre, Mohila Polytechnic Institute and attended an ongoing training session. She also had an extensive discussion with the personnel of the ITN Sub-centre.

Representatives of the Royal Danish Embassy and WSP-SA of the World Bank, Dhaka at the ITN Centre
